

Maple Valley Market Analysis and Legacy Site Plans

University of Washington
March, 2018

Site Analysis Overview

An analysis of the Legacy Site's surrounding area, developable areas, and potential road access points.

Photo by William Perry

Catchment Area Analysis

- Catchment area is predominantly occupied by residential dwellings.
- Site is on the rural-urban fringe.
- Roads surround the Legacy Site, but do not run through the parcel.
- Commercially zoned areas are located to the southeast side of the city.
- Comprehensive plan shows that vacant land to the south of the Legacy Site is expected to be a Town Center.

Topography Analysis

- Highest point is 606 feet.
- Lowest point is 538 feet.
- Slope runs east to west.
- Middle and edges of the site should remain undeveloped in order to preserve the health of vegetation.

Site Measurements

- 51 total acres.
- Largest amount of available square footage is available on the west side of the site.

Tree Preservation Area

- Two tree types of concern.
- Tree types are clustered together.
- Preservation of Big-Leaf Maple and Red Cedar Trees is recommended.

Required Tree Buffer

- Tree buffer around the site is recommended in order to protect the surrounding environment and community aesthetics
- Research found that the buffer zone does not need to exceed 140 ft (WAC 222-30-021)

Overall Analysis

- Three main areas are recommended for development
- Consider using the Western Red Cedar and Big Leaf Maples as a buffer zone for future developments

Access Points

- Option 1: Entrance from the East side from Highway 169
- Option 2: Build separate road to the South between the site and neighboring parcels

Market Analysis Overview

City of Maple Valley (MV) on the development of the property formerly known as the Legacy Site (LS). With our market study, we were able to create three concept plans for the LS, each highlighting different types of opportunity. The concept plans are drawn to scale, approximating the square footage and yield from each land type.

Developable Acreage Summary Chart

Legacy Site Acreage: 51

Maple Valley Priorities

Legacy Site Amenities/Priorities Based on List Provided in the 2005 CAC Report and 2017 Citizen Survey

- Office: 10
- Recreation Center with Indoor Pool :9
- Civic Green: 9
- Trailhead to Cedar to Green Trail: 9
- Recreation Center with Indoor Pool: 8
- Restaurant: 8
- College (Tech School with Dorms): 8
- Commercial/Retail: 8
- Hotel: 1
- Micro Theater: 1
- Informal Open Space: 8
- Pedestrian Amenities
- Bicycle Circulation
- Gathering Place: 7
- Living Room/Visitor's Center: 7
- Farmers Market: 6
- Active Forest (Rope Course, etc.): 5
- Residential: 1

Office and Employment

Medical Services	10
Shared Space	10
Light Assembly	10
Childcare Service	5

Commercial Retail

Microbrewery	10
Food Service	10
Farmers Market	10
Hotel	5
Micro Theater	1

Civic Campus

Recreation Center	10
Informational Center	5
Civic Green	9
Gathering Space	8

Multi-Family Residential

Maple Valley has no shortage of houses, however, in order for the city to generate tax revenue from the Legacy Site, all Real Estate types should be explored.

- Multi Family
- Cottages
- Digi Pen housing

Active Forest

Increasing the tree buffer around the Legacy Site over standard regulation creates green space while promoting local ecology.

- Trailhead
- Pedestrian Amenities
- Bike Circulation
- Rope Course & Zip Line
- Education Related to High School

Retail/Commercial	3 ac. / \$1.76 M
Active Forest	20 ac. / \$3.3 M

What To Expect

The next stage in our process will be a continuation of the site plan on the Legacy Site. Using the data we collected from the Market Analysis, we plan to design a **community center** reflecting both Maple Valley's heritage and future.
